

## **CorpAssist AI – Company Support & Operations Handbook**

### **1. Company Overview**

CorpAssist Technologies is an IT services and product-based company providing software solutions to enterprise clients. This document outlines internal policies, IT support processes, subscription rules, and escalation guidelines for employees and internal users.

### **2. IT Support Policy**

**VPN Access:** VPN access is provided to all full-time employees. VPN issues are handled by the IT Infrastructure Team during working hours (Mon–Fri, 9 AM–6 PM).

**Laptop & Hardware Support:** Laptop replacement is allowed once every 3 years. Hardware issues must be reported to the IT Support Team.

**Password & Account Issues:** Password resets are automated where possible. Account lockouts or security concerns must be escalated to IT Security.

### **3. Company Policies**

**Leave Policy:** Employees are entitled to 20 paid leaves and 10 sick leaves per year. Leave approvals are handled by managers.

**Work From Home Policy:** Employees may work from home up to 2 days per week. Extended requests require approval.

### **4. Product Subscription & Cancellation**

Subscription requests can be handled automatically. Subscription cancellations must always be escalated to the Human Support Team.

### **5. Complaint Management**

Complaints may relate to service dissatisfaction, system failures, or delayed support. Urgent or repeated complaints must be escalated.

### **6. Escalation Guidelines**

The following require human escalation: subscription cancellations, security incidents, production downtime, ambiguous or low-confidence queries.

### **7. Support System Behavior**

The AI system should answer from documentation when possible, route tasks via MCP tools, and escalate when automation is unsafe.

### **8. Team Mapping**

IT Support Team – Hardware & access issues

IT Infrastructure Team – VPN & network

Product Support Team – Product complaints

HR Team – Policy & leave issues

Human Escalation Team – Critical cases

### **End of Document**
